By providing more information about your house, this estimate will more closely match your energy bill.</p> <p>Customize to My Home</p>	Average House in Your Area \$ 1638	Energy Efficient House in your Area \$955
	<p>Heating \$ 287</p> <p>Cooling \$ 395</p> <p>Hot Water \$ 141</p> <p>Appliances \$ 395</p> <p>Misc. \$ 325</p> <p>Lighting \$ 96 Not to scale</p>	<p>You could save \$683 (or 42%)</p> <p>\$ 105</p> <p>\$ 149</p> <p>\$ 71 Not to scale</p> <p>\$ 257</p> <p>\$ 325</p> <p>\$ 48 Not to scale</p>
<p>See annual energy usage expressed as carbon dioxide emissions or energy consumption.</p>		

Suggested Upgrades to This House

Heating and Cooling:

Upgrade ceiling insulation to at least R-30.

Upgrade walls insulation to at least R-11.

When replacing windows choose windows with solar-control low-E glass.

Air sealing can reduce energy use for heating and cooling.

Choose an ENERGY STAR-labeled model when replacing your furnace.

Choose an ENERGY STAR-labeled model when replacing your central air conditioner.

Water Heating:

Wrap your water heater to reduce your water heating costs, if your water heater is more than 10 years old.

Major Appliances:

Replace your refrigerator with an Energy Star labeled model if purchased before 1990.

Miscellaneous:

Replace TVs and VCRs with ENERGY
